

Instructions

Pool Instructions

IF APPLICABLE | POOL VACUUM

Please DO NOT remove the pool vacuum from the water. Doing so will cause costly damage to the pool filter that you will be held liable for. Please inform everyone in your group.

Step 1: Swipe up to unlock the iPad.

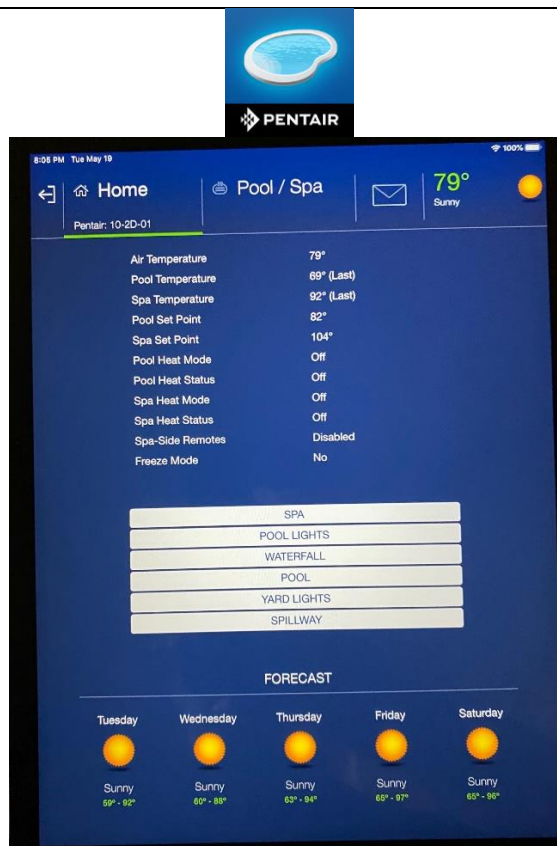

Step 2: Open the Pentair (ScreenLogic) application.

Step 3: The application should automatically connect when “Local” is selected.

Step 4: Follow the on-screen instructions.

REMINDER: Pool heating is not included. If you would like to heat the pool, please request this via email. Costs varies.

PLEASE REMEMBER TO TURN OFF THE POOL LIGHT, SPA JETS, SPA HEATER, & WATERFALL WHEN NOT IN USE.

Troubleshoot

- The iPad is missing or not working.

Answer: In the event that you cannot locate the iPad or the iPad is damaged, you may download the Pentair Screen Logic application to your Android or iPhone. The application will work without a password. Simply select “Local” when prompted.

The “Local” connection is not working.

Answer: In the event the local connection stops working, attempt a remote connection by selecting “Remote”. Enter ID: 10-2D-01

If these do not resolve your issue. Please notify us and we will send out the first available pool technician. Please do not tamper with the pool equipment or set schedules.

PLEASE REMEMBER TO TURN OFF THE POOL LIGHT, SPA JETS, SPA HEATER, & WATERFALL WHEN NOT IN USE.
