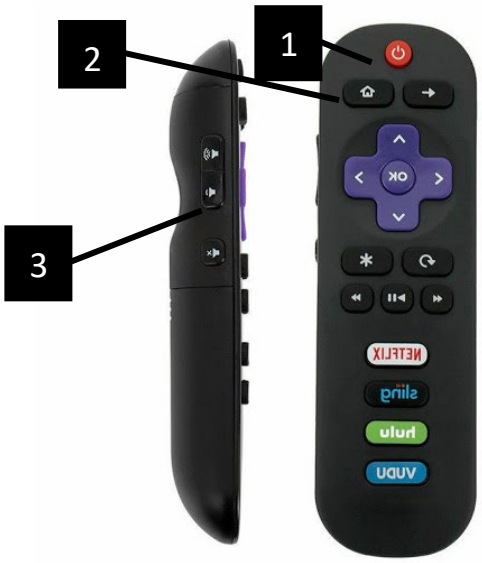
(All TVs) Hulu Live TV Instructions

1. Use the Roku remote to power on the tv.

2. Once the TV has powered on, select the application called Hulu.

3. Sound control is located on the side of remote.

4. Follow the onscreen instructions to view thousands of shows plus live local television.



Troubleshoot

- Is the Hulu application taking too long to load?

Answer: Try rebooting the TV by unplugging it for 5 minutes then re-plugging.

- Is the Hulu application asking for login credentials?

Answer: Please Contact host via email for the login credentials.

- Did the TV disconnect from the Wi-Fi?

Answer:
First, reboot the TV by unplugging it for 5 minutes.
Next, power on TV and navigate to “Settings” then “Network”.
Follow the onscreen instructions and navigate to the Wi-Fi settings and attempt to reconnect to the Wi-Fi.

Channel List (Plus HBO)
